PROJECTS

Academic projects <i>CUET CONNECTS: Connecting CUET Alumni and Current Students</i> Supervision: Shafiul Alam Forhad, Assistant Professor, Department of CSE, CUET CUET CONNECTS is a comprehensive social networking platform designed to foster meaningful connections and interactions between alumni of Chittagong University of Engineering and Technology (CUET) and current students. The platform serves as a centralized hub for the CUET community, offering a range of features to enhance networking, mentorship, and collaboration.	Oct'23-Nov'23
<i>RentWise : An Online Car Rental System</i>	Mar'23-Apr'23

Supervision: Ashim Dey, Assistant Professor, Department of CSE, CUET

The Online Car Rental System is a sophisticated and user-friendly platform developed using Django, a high-level Python web framework. This system facilitates seamless interactions between car dealers and customers, providing a convenient and efficient solution for renting cars.

June'22-Aug'22

TaskFlow: Collaborative Project Management App

Supervision: Sabiha Anan, Assistant Professor, Department of CSE, CUET

TaskFlow is a robust project management application designed to streamline project collaboration among teammates while providing course instructors with a comprehensive tool to track project progress. This app is developed to enhance teamwork, communication, and overall project management efficiency.

Personal Projects

Aug'20-Sep'20

Community Centre Management App using Java Swing

The Community Centre Management App, developed with Java Swing, is a user-friendly application designed to streamline the management and booking of community centre facilities. This app serves as a centralized platform for people to search for and reserve community centre spaces for various events and activities.

Sep'20-Nov'20

An Amazon clone website

I designed and implemented a dynamic Amazon-inspired website using React and JavaScript, creating a responsive and feature-rich user interface. Leveraging React's component-based architecture, the site offers seamless navigation, real-time updates, and an interactive shopping experience.

CERTIFICATIONS

Introduction to Programming

Jan'20

An online non-credit course instructed by Jagat sesh Challa and offered through Coursera

Data Structures and Algorithms Specialization

Oct'21

An online non-credit course authorized by San Diego University and offered through Coursera

Machine learning specialization

Nov'23

An online non-credit course authorized by Stanford University and offered through Coursera

SKILLS

Languages	Bengali (mother tongue)

<i>Familiar with</i>	LATEX, BOOTSTRAP, LINUX
<i>Software</i>	JUPYTER NOTEBOOK, VS CODE, MICROSOFT WORD,GOOGLE DOCS,MICROSOFT POWERPOINT

EXTRA CURRICULAR ACTIVITIES

1.Playing Football

2009-present

Engaging in football is a hobby that brings me joy and fulfillment. It's not just a pastime, but a regular activity where I get to improve my skills, bond with teammates, and experience the excitement of the game. Whether it's a casual match with friends or a more structured setting, playing football is a meaningful and enjoyable part of my life.

2.Travelling

2013-present

I have a strong passion for exploring new places. I enjoy the adventure of discovering different cultures, trying new foods, and experiencing the beauty of diverse landscapes. My travels not only serve as a recreational pursuit but also contribute to my personal growth, expanding my perspectives and understanding of the world.
