EDUCATION

BSc in Computer Science & Engineering
Chittagong University of Engineering & Technology (CUET) | 2020 - Present

- CGPA: 3.71

- Relevant Coursework: OOP in C++, Data Structures, Algorithms, Discrete Math, Operating Systems, Vector Calculus, Database Management System, System Analysis and Design, Assembly Language, Artificial Intelligence.

- Expected Graduation Date: February 2025

Good at

- JavaScript

- React

- Python

- Django

PROJECTS

CUET CONNECTS

- Developed a social networking platform, CUET CONNECTS, to facilitate connections between alumni and current students.

TaskFlow

- Developed TaskFlow, a project tracking system designed to streamline the tracking of undergraduate-level projects by course instructors. The platform facilitates seamless collaboration among team members, enhancing the overall project management experience.

Online Car Rental System

- Created an online car rental system that establishes a connection between car dealers and customers. This platform enables customers to conveniently rent cars from dealers, fostering a user-friendly and efficient rental experience.
